## Measuring Tapes

### Rapid-Eights™ Tape Measure 25' With 1/8" Readouts On The Blade

Convenient 1/8" readouts on the blade.

This ControLok® design tape features convenient 1/8" fractional references clearly marked on the blade, making measurements easier and faster to read.

#### ControLok Features:

- Blade automatically locks when thumb pressure is released, eliminating "snap-backs" and allowing you to control the return speed of the blade
- Convenient, top thumb control lever eliminates accidental blade retraction, which commonly occurs on tapes with locks that are mounted on the bottom of the case
- Case has contoured shape and top rubber grip and a bottom finger groove, making it comfortable to hold and easy to grip
- Heavy-duty blade with Tough Tip® End Hook for longer life
- Rugged, impact resistant case in a high visibility color

#### English Reading

Mfg. No.	EDP No.	Blade Width x Length	Case Color/Finish
AR1-25F	66388	1" x 25'	Yellow

## Nylon Clad Steel Long Line Measuring Tapes

No. 536 Series  
100, 200, 300'

No. 536-100

- Nylon clad steel is rigid, wear resistant
- Easy to read blade - graduated feet and inches to 1/8ths on high visibility yellow. Decimal graduations on the other side.
- Open reel/handle design is easy to handle and rewind
- Designed for engineers and surveyors

Mfg. No.	EDP No.	Length
536-100	66550	100'
536-200	66551	200'
536-300	66552	300'

## Levels

### Starrett-Exact® Carpenters', Masons' And Plumbers' Levels

These levels are offered in three categories of quality and in a variety of lengths and styles. They are all accurate and well-made.

- Builders' and Contractors' levels with the new unbreakable block vial system, with or without adjustable capability
- Professional levels for workers in the building trades who value dependability
- Economy levels that are inexpensive but very adequate for the homeowner or do-it-yourselfer

### Builders' and Contractors' Levels with new, unbreakable block vial system and Adjustable Vial Systems

### Mahogany/Aluminum Levels With Unbreakable Block Vial System

#### BC-M Series 24-78"/60-198 cm

These levels are the top of the Starrett-Exact® line and are prized by craftsmen. They are not only accurate and very sturdy, but they are also attractive and easy to handle, having a good "feel".

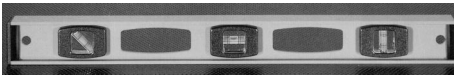

- Mahogany construction, reinforced with an aluminum I-beam frame and working edge
- Large, acrylic block vials, **unbreakable under normal working conditions** (please don't drive a tractor over them!)
- **Accurate, machined, barrel-shaped vials have full 360 degree viewing**
- Shock-absorbing end caps protect working edges and preserve accuracy
- Convenient hang hole

Mfg. No.	EDP No.	Size		Description
		Inch	cm	
BC-M-24	36325	24"	60	3 Vials (2 Plumb, 1 Level)
BC-M-36	36326	36"	90	3 Vials (2 Plumb, 1 Level)
BC-M-48	36327	48"	120	3 Vials (2 Plumb, 1 Level)
BC-M-72	36328	72"	180	4 Vials (2 Plumb, 2 Level), Door Jamb Roller
BC-M-78	36372	78"	198	4 Vials (2 Plumb, 2 Level), Door Jamb Roller

## Levels Professional Sta-True™ Aluminum Levels

**STE Series**  
24-96"/60-240 cm

**MST Series With Magnetic Edge**  
24-72"/60-180 cm

- One-piece extruded aluminum frame
- I-beam cross-section with flanged edges for increased strength
- Rectangular vial sights with vials having full 360 degree viewing
- Permanently mounted acrylic vials require no adjustment
- Large magnetic strip mounted flush to the working edge on one side of the No. MST models, for increased holding power. Frees hands when leveling on ferrous surfaces

### STE Series

Mfg. No.	EDP No.	Size		Description
		Inch	cm	
STE-24	36053	24"	60	3 Vials (1 Plumb, 1 Level, and 45°)
STE-36	36055	36"	90	3 Vials (2 Plumb, 1 Level)
STE-48	36056	48"	120	3 Vials (2 Plumb, 1 Level)
STE-72	36057	72"	180	5 Vials (3 Plumb, 2 Level)
STE-96	36059	96"	240	5 Vials (3 Plumb, 2 Level)

### MST Series

Mfg. No.	EDP No.	Size		Description
		Inch	cm	
MST-24	36062	24"	60	3 Vials (2 Plumb, 1 Level), One Magnetic Edge
MST-48	36064	48"	120	3 Vials (2 Plumb, 1 Level), One Magnetic Edge
MST-72	36065	72"	180	5 Vials (3 Plumb, 2 Level)

## Starrett-Exact® Economy Levels Economy Aluminum Levels

**ST Series**  
18-48"/45-120 cm

- Medium-duty aluminum I-beam cross section with flanged edges for increased strength. Large octagonal vial sights for maximum visibility
- Permanently mounted vials have full 360 degree viewing and require no adjustment

Mfg. No.	EDP No.	Size		Description
		Inch	cm	
ST2-18	36042	18"	45	2 Vials (1 Plumb, 1 Level)
ST2-24	36043	24"	60	2 Vials (1 Plumb, 1 Level)
ST3-24	36044	24"	60	3 Vials (2 Plumb, 1 Level)
ST3-48	36048	48"	120	3 Vials (2 Plumb, 1 Level)

## Economy Aluminum Box-Beam Levels

**EBX Series**  
24-48"/60-120 cm

- Strong aluminum box-beam frame
- Block-type level vials have full 360 degree viewing

Mfg. No.	EDP No.	Size		Description
		Inch	cm	
EBX 60/24E	66150	24"	60	2 Vials (1 Plumb, 1 Level)
EBX 90/36E	66152	36"	90	2 Vials (1 Plumb, 1 Level)
EBX 120/48E	66154	48"	120	2 Vials (1 Plumb, 1 Level)

## Deathstik Titanium Steel Hammers

**Magnetic  
Nail  
Starter**

**Lightweight  
Titanium-Heavy  
Duty Attitude**

Dead On Titanium drives like heavier steel hammers but weighs only 14 ounces. Like its heavy metal cousins, Dead On's classic "California-Style"

head is perfectly balanced, and ergonomically designed to deliver powerful, clean strokes. Titanium's unique combination of hardness and light weight, means these Dead On Hammers will stand up to the demands of the framer, but are also ideal for the specialized needs of plumbers and electricians.

- Lightweight at 14 oz.
- Ideal for all trades including framing, plumbing, electrical, etc.
- Corrugated or smooth face
- Premium hickory handle
- Magnetic nail set
- Curved or straight handles
