

## JIM-BUOY®

### JIM BUOY® Dock Bumpers, Corner Bumpers and Roller Bumpers

#### JIM-BUOY® NO NAILS\* Dock Bumper System

\*ALL INSTALLATION NAILS ARE HIDDEN FROM NORMAL VIEW - Both dockside and from approaching vessels!

**Our newest and neatest!** Now any wooden-side dock - old or brand new installations, can be beautified quickly and easily with the new Jim Buoy No Nails\* Dock Bumper System. All it takes is one man, a helper and a hammer. The corner bumper, designed with a recessed step, is first nailed into place, then followed by nailing the side bumper strip to form a snugly fitting lap joint. In a few minutes the installation becomes a routine. The finished job will enhance any dock area and best of all the installation nails are all hidden from normal view! Manufactured from the finest UV Inhibited, all white Marine Vinyl, it will provide years of trouble-free service. For ease in handling, we recommend to avoid freezing cold weather during installation as the vinyl is much more flexible on a warm day. Please call for complete details.  
\* Hidden from normal view.

### JIM BUOY® Corner Bumpers

New #5008 corner bumper matches design of new #5013 dock bumper.

**Superior protection at no added cost** – Both models are designed with an extra volume of cushion at the point of contact and are molded from white, weather resistant Marine Vinyl...the best material available for use at this critical point of impact. The new, heavy-duty #5008 is designed to take the beating of all larger and heavier vessels. Similar in construction as the popular #5007 and designed to match the configuration of the new #5013 dock bumper to provide a trim installation.

**Model #5007** - 8" x 8" x 4" ht. 12 per ctn., ship. wt. 16 lbs.

**Model #5008** - 10" x 10" x 6" ht. 6 per ctn., ship. wt. 14 lbs.

### JIM BUOY® Dock Bumpers

Just about any size or style you may require!

**#5010, High Crown, UV Inhibited** - White vinyl manufactured with a generous overlap; a combination of beauty and strength.

**NEW!**

**#5012, Industrial Duty, UV Inhibited** - Extra heavy duty white vinyl and much larger in size for heavy commercial traffic or larger vessels.

**#5011, Piling Bumper** - Usually mounted vertically to protect against those monstrous pilings that are always in the wrong place.

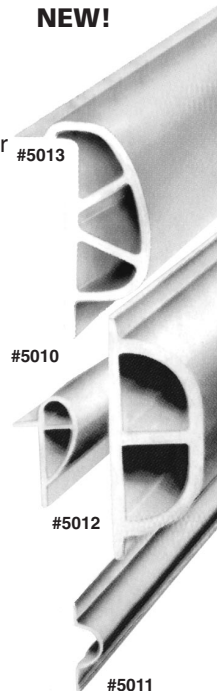

**#5013, Extra Heavy Duty, UV Inhibited** - Protects the more expensive larger and heavier boats. Matches new, larger #5008 corner bumper in size and configuration.

**Model #5010** - 3-1/2" white vinyl, 6 feet long, 10 lengths per carton, ship. wt. 42 lbs.

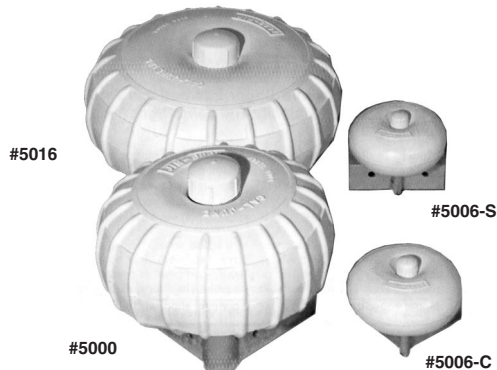

**Model #5012** - 7-1/2" white vinyl, 10 feet long, 2 length per carton, ship. wt. 100 lbs.

**Model #5011** - 2" white vinyl, 6 feet long, 10 lengths per carton, ship. wt. 46 lbs.

**Model #5013** - Heavy white vinyl 5-1/2" width, 2-1/2" depth, 6 ft. long. 3 lengths per carton, ship. wt. 44 lbs.

### JIM BUOY® Roller Bumpers

✓ **THREE GREAT SIZES** - All Models available with corner or straight mount bases!

✓ **NEW MODEL #5016** - In answer to many requests for greatest possible standoff!

✓ **SEALED INFLATION** - For years of trouble-free use!

All Models provide a substantial cushion in the most troublesome tides, currents or fresh breezes. Finest heavy-duty vinyl wall construction with hot-dipped galvanized or epoxy coated steel hardware throughout and large sizes feature a 2" diameter axle housing to assure maximum strength under severe conditions.

(Designate corner or straight mount when ordering, i.e. 5006-S or 5006-C).
